Part 3

WRITING

Time: 30 minutes

(20 points)

Imagine that you are doing a project **on how teenagers relax after a busy day in Zetland**. You have found some data on the subject – the results of the opinion polls (see the table below). **Comment on the data in the table and give your opinion on the subject of the project.**

Ways Number of respondents (%)

Having a hobby 38%

Spending time with friends 31%

Sleeping 15%

Walking in the open air 10%

Eating tasty food 6%

Write 200–250 words.

Use the following plan:

- make an opening statement on the subject of the project;
- select and report 2–3 facts;
- make 1–2 comparisons where relevant and give your comments;
- outline a problem that can arise with having a rest and suggest a way of solving it;
- conclude by giving and explaining your opinion on the importance of relaxing well in our lives

Undoubtedly, leisure time is becoming more and more popular nowadays. I am currently working on the project which focuses on studying popular free time activities that teenagers in Zetland do. I had found some relevant data on the subject and I'm gonna use them in my project.

According to the table's results 38% of all respondents prefer being engaged in hobbies after a busy day, and delicious food is the least popular way of relaxing that only stands at 6% of teenagers' choice. They also spend free time with their friends as well as sleep and walk in the fresh air to relax after a hard day.

One can see from the poll that spending time with friends (31% of surveyed) is almost twice as popular as sleeping, which is only 15 percent, and almost three times more

popular than walking in the fresh air chosen by 10%. It is an open secret that teenagers need enough time for communication in order to have social skills.

As we can see, there are several ways to relax for teenagers, and a problem with relaxation exists indeed.

I'm convinced that relaxation is extremely important for everyone as it creates positive thinking and helps concentration and memory development.

All in all, teens should lead a more active life.
